

CHETAN SALASKAR

Senior DevOps Engineer

+91-9545656947 | chetansalaskar47.cs@gmail.com | LinkedIn: [linkedin.com/in/chetansalaskar](https://www.linkedin.com/in/chetansalaskar) | Pune, India

PROFESSIONAL SUMMARY

Senior DevOps Engineer with 8+ years building secure, highly available AWS platforms and agentic AI automation for enterprise-scale insurance systems across 5+ global business units — combining hands-on Kubernetes/CI-CD engineering with Sev-1 incident leadership and DevSecOps ownership.

TECHNICAL SKILLS

Cloud & IaC: AWS (EKS, EC2, RDS, Lambda, S3, IAM, VPC), Azure, Terraform, Ansible

AI/GenAI: AWS Bedrock AgentCore Runtime, Claude

Containers & Orchestration: Docker, Kubernetes, Amazon EKS, OpenShift, Helm

CI/CD & GitOps: Jenkins, GitHub Actions, GitLab CI, ArgoCD, XL Release, Rundeck

Observability & DevSecOps: Dynatrace, CloudWatch, SonarQube, GHAS, Wiz, AWS Secrets Manager

Scripting: Bash, Python, Groovy

Other: Nexus, GitHub, ServiceNow, JIRA, MongoDB, JFrog

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer

May 2018 – Present

Allianz Technology India | Pune

- **Built an agentic AI FinOps agent on AWS Bedrock AgentCore automating AWS cost optimization with human approvals** — cut Bedrock inference cost approx. 60-70% via prompt caching.
- Re-architected CI/CD (Jenkins, GitHub Actions, ArgoCD, Helm) across multiple business units, **cutting deployment time 60% and doubling release frequency**.
- **Diagnosed and resolved critical Amazon EKS production outages** (memory leaks and EKS node group failure), eliminating recurrence.
- Drove security remediation across 45+ repositories (SonarQube/GHAS), led credential rotation across 5 business units, and advanced DevSecOps via Wiz cloud security posture implementation, **closing audit gaps**.
- Automated infrastructure provisioning with Terraform, **cutting environment setup from days to hours** across 5+ business units.
- Administered and optimized Kubernetes (EKS) clusters — Helm chart development, resource configuration, and workload tuning — **for critical production services**.
- Designed and validated disaster recovery (DR) strategies — backup automation and multi-AZ/multi-region replication — **safeguarding critical services against regional failure**.
- Built cross-region Dynatrace observability and synthetic monitoring across 8+ environments, **catching issues before customer impact**.
- Led microservices migration, **improving performance 40%**; owned P1/P2 incident response and RCA as production SME.
- Led on-site tooling upgrades and Operational Excellence onboarding in Vienna, **mentoring engineers on GitOps/CI-CD best practices**.
- Performed EKS and RDS version upgrades across environments, **staying ahead of AWS end-of-support deadlines with zero unplanned downtime**.
- Led critical incident bridge calls as primary point of contact, **coordinating engineering, business, and vendor stakeholders**.
- Developed migration strategies, cutover plans, and rollback procedures, **minimizing risk across large-scale migrations**.

EDUCATION

Bachelor of Computer Science | Savitribai Phule Pune University | 2016

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (SAA-C03) • HashiCorp Certified: Terraform Associate • ITIL V4 Certified
• Certified Kubernetes Administrator (CKA)
