

CHETAN SALASKAR

Senior DevOps Engineer

+91-9545656947 / +91-7558556947 | chetansalaskar47.cs@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

8 years Cloud DevOps Engineer specializing in secure, scalable platforms on AWS. Expert in CI/CD, Terraform/CloudFormation, Docker, Kubernetes, and observability. Focused on cost optimization, reliability, and delivery speed through GitOps, automation, and cross-team collaboration.

TECHNICAL SKILLS

Cloud Platforms: AWS, Azure

Containers And Orchestration: Docker, Kubernetes, Amazon EKS, OpenShift

CICD Tools: Jenkins, GitHub Actions, GitLab, Helm, Jenkins, ArgoCD, Helm

Version Control: Git, GitHub, GitLab

Infrastructure As Code: Terraform, CloudFormation

Monitoring Logging: Dynatrace, Amazon CloudWatch.

Scripting Programming: Bash, Groovy, Python

Databases: MySQL, MS SQL, MongoDB

OS: Linux, Ubuntu.

Others: Nexus Artifactory, Maven, NPM, Helm, AWS Secrets Manager, XL Release, S3, Load Balancing, SonarQube, Jira, Confluence, DevSecOps, Ansible, VPC, IAM, EC2, RDS, Lambda.

PROFESSIONAL EXPERIENCE (8 YEARS)

Senior DevOps Engineer | *May 2018 - Present*

Allianz Technology India | *Pune*

- Implemented **GitOps** workflows and managed **ArgoCD** application deployments across multiple environments, enhancing deployment consistency, reliability, and traceability - cutting deployment time by 60% and doubling release frequency.
- Designed, built, and maintained CI/CD pipelines using **GitHub Actions** and **Jenkins** for microservices, integrating automated build, test, security checks, and rollout processes.
- Administered and optimized **Kubernetes** (EKS) clusters, including Helm chart development, resource configuration, workload tuning, and end-to-end cluster operations for critical services
- Automated provisioning via **Infrastructure as Code** (Terraform, CloudFormation), shrinking environment setup from days to hours.
- Established **observability** using Dynatrace and authored post-incident reports and RCA documentation for leadership review.
- Led **microservices migration** from legacy apps, improving performance by 40%.
- Provided 24/7 on-call support, collaborating with cross-functional teams with **agile** framework to quickly diagnose and resolve production issues.
- Advanced **DevSecOps** with AWS Secrets Manager and IAM policies, strengthening security posture.
- Experienced in managing high-severity incidents, driving **RCA**, ensuring **SLA** compliance, and coordinating cross-functional teams for rapid service restoration.
- Troubleshooting application issues during build or deployment failures and serving as the Subject Matter Expert (**SME**) for production incidents and Go-Live's.

PROJECTS

Platform Automation | Claims Classic Team

- Led on-site engagements in Vienna for tool stack upgrades and Operational Excellence **onboarding** in a global enterprise setup.
- Developed and optimized **GitHub** workflows streamlining deployment processes and ensuring seamless, consistent environment across development and production stage. .
- Automated repetitive tasks with **Bash**, **Python** or **Groovy** scripts to reduce manual effort and errors.
- Performed **upgrades**, node maintenance, and cluster-level configurations using kubectl, CLI tools, and cloud providers.
- Designed and validated disaster recovery strategies, backup **automation**, and multi-AZ/multi-region replication.

Build and Configuration | ABS Ops Team.

- Coordinated release orchestration using **XL Release and Rundeck**, optimizing deployment processes and improving cross-team collaboration.
- Led the RHEL8 **migration** on Linux-based environments, ensuring smooth transition and compatibility across host systems.
- Configured Jenkins pipelines to streamline build, test, and deployment processes.
- Set up automated scripts for creating containerized applications using **Docker** concepts.

Incident Management | BMP International Team.

- Configured and monitored logging, alerting, and incident management solutions by using **Dynatrace** and **ServiceNow**.
- Collaborated with the L3 support team to escalate and resolve complex technical issues efficiently and ensured adherence to **ITIL** processes for Incident, Problem, and Change Management.
- Acted as the primary point of contact during high-severity incidents, facilitating technical bridges and stakeholder updates.
- Prepared and presented post-incident reports (**PIR**) with detailed insights and action items.

EDUCATION

Bachelor of Computer Science | Mar 2016

Savitribai Phule Pune University

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA-C03)
- HashiCorp Certified: Terraform Associate
- Docker Certified Associate
- Certified on Terraform, Docker and GitHub Action from KodeCloud

LANGUAGES

- English(Fluent)
- Marathi (Native / Fluent)
- Hindi (Fluent)
